AMERICA FOR AMERICANS

McKINLEY AND WILSON ABROAD.
In 1890 William McKinley was burned in effigy in the English manufacturing city of Sheffield; but in 1898 William E. Wilson was killed and killed in London because he is the author of a Free-trade Tariff Bill. These are significant facts.

When the Democrats followed old GEORGE H. PENDLETON's lead and voted for the Civil Service Law they hadn't the slightest idea that it was loaded.

The Bulletin is very much exercised as to who the Republicans will nominate for state offices. Just keep your shirt on, neighbor, and in due time we'll name the fellows who will keep the mosquitoes off you.

DENMARK has followed Germany's example and closed its ports to live cattle and fresh meat from the United States. Thus the Democratic Administration is cutting off "the markets of the world" which the McKinley Law and Reciprocity opened to us.

The Civil Service Commission reports as illegal the appointment of seven watchmen in the Baltimore Powderworks and their subsequent promotion to the places covered in the recent Civil Service extension. Oh, my! Those Democratic rascals do observe the Civil Service Law! If Republican Postmaster should do what Baltimore's Democratic Postmaster has done, our beloved Brother of the Bulletin would have a forty horsepower ducklet.

SPEAKING OF . . . well, what's the matter with this for 1896?

The Bulletin recently used nearly half a column of its valuable space to prove that the importer pays the Tariff tax. Its story, "billed down," is this: A TAYLOR—maybe this is one of The Enquirer's "gags" that The Bulletin has swallowed—lives in Cincinnati. Digressing, there are a great many tailors in the Queen City. Well, let that go; A TAYLOR has a friend in Ireland; that friend sent a tailor a suit of underwear, valued at \$6. It came by express; but the New York Democratic Customs officers levied a Democratic Tariff on the package amounting to \$8.13, and A TAYLOR—or a tailor—can't get it through the New York gate of the Chinese Wall without paying the \$8.13. That's all, excepting that The Bulletin proves by this that "the Tariff is a Tax." Yes; but it proves just what we have been trying to pound into the head of Bro. MANON for, lo, these many years—that the importer pays the tax! In this case a tailor—beg pardon, A TAYLOR—was the importer of the goods. Now, if the enterprising Mr. TAYLOR—tailor, we mean—had placed those goods in his store at Cincinnati, he would have been obliged to sell them at exactly the same price that he asks for American-made goods of like quality, no matter how much he might have paid to get them through the Customs-house.

JOHN'S throbbing life

offered to the chronic invalid would be regarded with distrust! Long suffering leaves the patient hopeless—he believes no more in any cure. Would that such hopeless ones could read the testimonials of

Brown's Iron Bitters

They point a way to relief and health, and they are genuine! For twelve long years I was a great sufferer from liver and other troubles, and at times was confined to my bed. I tried a number of medicines, but without benefit. Then I gave Brown's Iron Bitters a trial, and it brought me off my back. Today I am as well as ever. W. T. LOCK.

After being under the care of a physician for eight years, I commenced taking Brown's Iron Bitters, and in a few days I was entirely cured. It is the best medicine I have ever taken, and I can recommend it to every man suffering as I did who could know his value.

Does the above knock at your door?

The Genuine has the Crossed Banners Trade Mark. BROWN CHEMICAL CO., Baltimore, Md.

THE Democratic idea is to pay out American gold for foreign goods—giving us the goods and the foreigner the gold. The Republican plan is to pay out American gold for American goods—giving America both the goods and the gold. Now, honor bright, which do you think is the best?

HENRY COURT Democrats will contest the election of SHUTE, Republican, for Sheriff. He claims the election by three votes, but the Democrats hold that among numerous fraudulent votes are thrown out the Democratic candidate, YAKUB, will have a majority. Thought it was Republicans only who entered into contests.

A special from Georgetown, O., says the Circuit Court for this subdivision, now in session, has just granted a continuance in the case of the State of Ohio against Edward H. Jones, now for the fourth time continued in the annex awaiting execution. Jones was to have been hanged on the 21st day of December, but as the Circuit Court does not meet here again until next April, he will be reprieved until that time. The continuance was granted on the ground that the defendant's attorneys had not had sufficient time to examine the bill of exceptions filed in the case.

\$100—Reward—\$100.
The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one Hundred Dollars for any case that it fails to cure. Send for testimonials. Address, J. C. THAT REPORT.

Commissioner Carroll D. Wright Defends It.
The Conclusions Reached Were Based Upon Good, Solid Evidence.

The Conditions and Systems Looked Into Impartially by the United States Strike Commission—Commissioners Did Not Start Out to Vindicate Anyone.

WASHINGTON, Nov. 22.—"It is impregnable and the conclusions reached by the strike commissioners were based upon good, solid evidence." This utterance referred to the recent report of the United States strike commission, and was made by Labor Commissioner Carroll D. Wright. The statement was called forth by a dispatch from Chicago which was shown to Mr. Wright.

The dispatch gave a sketch of an article which it stated was to appear in the next issue of the Railway Age in reply to the report of the presidential strike commission. The article in question attacked certain paragraphs in the report and said they were false and alleged that the report as a whole was full of errors and misleading statements.

"As an individual member, and not speaking for the commission as a whole," said Mr. Wright, "I can only put the report against the article in the Railway Age. We have not received a copy of the article officially, and until we do the commission will not answer it. The report is impregnable and based upon evidence throughout."

Mr. Wright also said that those who were hurt by the report and felt its forceful penetration, would, in their efforts to check its influence, use the weapons of abuse. They can not, he said, point out the alleged "enormous errors" and inaccuracies which are pointed out in the Age article. "The report of the commission is based on facts and will stand."

One of the so-called errors or inaccuracies made by the commissioners, according to the Railway Age, was the statement that a large number of railroad employees were sworn in as deputy United States marshals to protect railroad property, and that their salaries as government law officers were paid by the railroad companies and not by the United States.

"This statement," added Mr. Wright, "was tested to before the strike commission by President St. John, of the Railway Managers' organization, and others on his side of the question, and I do not hesitate to say that the employment of those railroad men as deputy United States marshals was wrong and set a very bad precedent indeed."

Commissioner Wright was in Chicago the other day when the report of the strike commission appeared in the newspapers under glaring headlines, some of which stated that the report was a vindication of the policy of President Eugene V. Debs, of the A. R. U. Reformer to this, he said. "The strike commissions did not set out to deal with or investigate Mr. Debs, Mr. Pullman or Mr. St. John. It was not dealing with individuals but systems. There was no purpose to vindicate anyone, but to investigate conditions and systems impartially and report the findings to the government."

Lumber Dealers' Association.
NEW YORK, Nov. 22.—There has recently been organized in this city an association, which it is expected will have a large influence on the wholesale lumber trade throughout the country. It is called the National Wholesale Lumber Dealers' Association. The organization is the outgrowth of a voluntary association which has been in existence for some months, but never been legally incorporated. As now incorporated the association represents a capital of \$300,000.00 and the business done represents \$75,000,000 a year.

Street Cars Collision.
PITTSBURGH, Nov. 22.—In a collision between an electric car and a cable car here Wednesday, one woman was probably fatally injured and the gripman and three other passengers badly hurt. The injured people are: Mrs. C. L. Jones, head cut and bruised, dangerously hurt; Gripman Larry Ray, badly cut about the head and arms; Michael Komblut, Miss Brown and an unknown lady.

Seth Hoke is Not Dead.
PORTLAND, IND., Nov. 22.—Seth Hoke, reported to have been killed at Fortaria, O., is at his home near Red Key. He thinks the man whose body was found is Henry Hebaugh, a Cincinnati painter, who worked for him some time ago, and went to Ohio in search of a job. He probably had hidden himself in his pocket, thus causing the mistake.

LIMA, Peru, Nov. 22.—Troops have been sent to Yica, where, it is reported, Patrols is at the head of a considerable force. Troops are expected to reach Lushan, where the rebels are concentrating their forces.

RETALIATION.

It Can Not Be Far Off If Germany Continues Her Unfair Treatment of American Importers.

WASHINGTON, Nov. 22.—Indications multiply to show that the German government is pursuing a repressive policy towards importations from the United States, and that in the end may call for retaliation. The latest evidence is contained in a report to the state department from United States Consul Robertson, at Hamburg. He says that a movement is being set on foot by the imperial government looking to the complete exclusion of dried and evaporated apples from the United States, which are found to contain more than a specific amount of zinc, supposed to have been taken up from the zinc frames in which the fruit is dried. As a result, the trade would severely suffer.

The consul suggests that fruit-driers change their methods and use wooden frames, as it is all important that articles sent from the United States to Germany should be prepared in every direction, so as to afford no grounds for complaint on the part of either German officials or competing dealers, such as must be justly and successfully used to injure or destroy our trade. At the same time the consul does not admit, without further proof, the full extent, by any means, of the alleged well advertised defects in our food products that are being claimed in Germany. He feels convinced that our government, upon the proper representations, will take all necessary steps to protect the home market from the unfair and unreasonable interference, when offered for sale in the markets of Germany, and that it will use every means in its power to bring it about that any restrictions imposed upon them there are such as are actually justifiable from a sanitary standpoint, are not merely arbitrary, and are applied to similar articles when imported as well from another country than the United States.

Enclosures sent with the report from our circular agencies show that the attacks made in the German papers on American products have extended to American seeds, clover, timothy, etc., which are supposed to have been adulterated and weakened. The same consul transmits a complaint from an importing merchant in Hamburg against the requirements that all American small arms shall be submitted to government test and proof before sale. He says that the additional cost of the process makes it impossible to sell American arms in competition with German arms. Inasmuch as Belgium and Great Britain saved their trade by securing German recognition of the sufficiency of tests made at their own gun-shops under government supervision, he suggests that American gun-makers combine to secure the same privilege.

HE DEFAULTED.

After Serving the Chemical National Bank of New York for Twenty Years.

NEW YORK, Nov. 22.—The Herald Wednesday morning said: The Chemical National Bank, one of the most prosperous and most conservative institutions in the country, has for the first time in a half century been made the victim of a defaulter. The amount involved, so far as known, is \$15,715. John R. Tait, who was the paying teller, is the official who misappropriated the money. The officials of the bank deny that more than a cent of the money went to his own use. The proof of this is that he could have taken \$1,000,000 as well as a few hundred dollars, had he so inclined. Three-fourths of the sum, they say, he lent to personal friends, taking no collateral, and only in a few instances receiving as much as an I. O. U. for the money handed out; the rest, it is said, is due to errors made by Tait in paying out cash.

It is claimed by the president and the cashier that the excessive worry caused by these loans retarded Tait to such an extent that he was unable to be responsible for his actions and made many mistakes.

Activity in the Mexican Navy.

SAN FRANCISCO, Nov. 22.—The Mexican warship Saragossa, which is in the dry dock here undergoing repairs, will be sent south as soon as possible to look out for Mexico's interests on the western coast in case of war with Guatemala. The work on the Saragossa was proceeding in a most leisurely manner when advices were received that she was ready for sea immediately. This is in anticipation that Mexico expects trouble with Guatemala.
